

AN OPEN LETTER TO WOODLAND POND RESIDENTS AND STAFF
FROM YOUR BOARD OF DIRECTORS

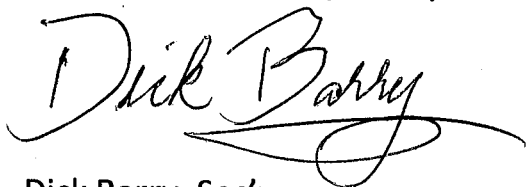

September, 2017

Again this year, as we have in the previous three years, Woodland Pond residents have volunteered to participate in the United Way of Ulster County's annual Day of Caring, along with a significant number of staff members. Nothing could reflect a stronger standard of our community's civic mindedness and our deep concern for others than these thoughtful acts.

Year after year, Woodland Pond's reputation in the wider circles of New Paltz and Ulster County continues to be enhanced through our ever-expanding, voluntary and enthusiastic participation in town and county events throughout the year, proving that our residents' senior status has not diminished their eager responsiveness to the challenges and needs of others, especially when supported by our excellent staff.

Your Board of Directors congratulates all the residents and staff members for their participation in this worthwhile Day of Caring, with special thanks to Michelle and her management team for facilitating this wide representation from Woodland Pond. In addition to the personal satisfaction derived from these good works, such exemplary actions can serve to burnish our public image and foster excellent relations with outside agencies. They also demonstrate our community's vibrancy, active lifestyle and caring nature to a wider audience.

You, the vital, giving residents of Woodland Pond, and you, the hard working, committed staff members, contribute immeasurably to our sterling reputation. All Board members proudly salute you.

A handwritten signature in black ink that reads "Dick Barry". The signature is written in a cursive style with a large, sweeping flourish at the end.

Dick Barry, Sec'y,
Board of Directors
